Horizon Europe (2021-2027)

Horizon Europe

Total budget: €
95.5 Billion

Pillar 1 EXCELLENT SCIENCE

European Research Council

Marie Skłodowska-Curie Actions

Research Infrastructures

The ERC represents **17% of the overall Horizon Europe budget**, i.e € 16 billion

Pillar 2 GLOBAL CHALLENGES & EUROPEAN INDUSTRIAL COMPETITIVENESS

Clusters

- Health
- Culture, Creativity and Inclusive Society
- Civil Security for Society
- Digital, Industry and Space
- Climate, Energy and Mobility
- Food, Bioeconomy, Natural Resources, Agriculture and Environment

Joint Research Centre

Pillar 3 INNOVATIVE EUROPE

European Innovation Council

European innovation ecosystems

European Institute
of Innovation and Technology

WIDENING PARTICIPATION AND STRENGTHENING THE EUROPEAN RESEARCH AREA

Widening participation and spreading excellence

Reforming and Enhancing the European R&I system

European Research Council

The ERC, set up by the European Union in 2007 is the premier European funding organisation for excellent frontier research.

The ERC's mission is to encourage the highest quality research in Europe through competitive funding and to support investigator-driven **frontier research** across all fields, on the basis of **scientific excellence**.

It funds creative researchers of any nationality and age, to run projects based across Europe.

The ERC is led by an independent governing body, the **Scientific Council**.

anywhere in the world

High risk / High gain

any field of research

Portable

best settings to foster **creativity**

(Money follows researcher)

Scientific Excellence

One Principle Investigator

(except SyG)

One Host Institution

Attractive, flexible, long term
funding

A success story for 15 years

>10,000 top researchers

75,000 team members employed in ERC Grants (Each ERC grantee employs on average **7 team members**)

>12,000 projects

850 host institutions

200,000 articles published. Over 6,100 articles are among the top 1% highly cited.

85 nationalities

2,200 patents and other IPR applications

ERC Grantees have won **12** Nobel Prizes, **6** Fields Medals, **11** Wolf Prizes

400 start-up companies funded/co-funded by ERC Grantees

More than **%70-80** of projects made scientific breakthrough or major advances

ERC offers you

- the possibility to work on a research topic of own choice, with a team of own choice
- true financial autonomy for 5 years.
- the means to negotiate with the host institution for the best conditions.
- the means to allocate time for research
- the ability to attract best team members, best collaborations as a quality label.

Starting Grant

2-7 years after PhD

up to €1.5 Million
for 5 years

+ up to € 1 Million*

Consolidator Grant

7-12 years after PhD

up to € 2 Million
for 5 years

+ up to € 1 Million*

Advanced Grant

10 years track
record

up to € 2.5 Million
for 5 years

+ up to € 1 Million*

Synergy Grant

2 - 4 PIs at any
career stage

up to € 10 Million
for 6 years

+ up to € 4 Million*

Proof of Concept (for ERC Grant Holders)

bridging gap between research - earliest stage of marketable innovation

up to €150,000 for up to 18 months

(Possibility to apply to EIC Transition with the results)

- ERC **does not** fund consortium based multi-partner international projects
- ERC **does not** evaluate “Impact” or “Implementation”: **it evaluates only “scientific excellence”**
- ERC **does not** request work packages and especially deliverables in the proposal
- ERC **does not** focus on final product/outcome

2023 ERC Calls

	<i>Starting Grant</i>	<i>Consolidator Grant</i>	<i>Advanced Grant</i>	<i>Synergy Grant</i>
<i>Call identifier</i>	ERC-2023-StG	ERC-2023-CoG	ERC-2023-AdG	ERC-2023-SyG
<i>Call opens</i>	12/07/2022	28/09/2022	08/12/2022	13/07/2022
<i>Call deadline</i>	25/10/2022	02/02/2023	23/05/2023	08/11/2022
<i>Budget million EUR (estimated number of grants)</i>	628 (407)	595 (300)	597 (246)	300 (30)

**Total Budget of the Calls:
2.2 Billion €**

**Total number of projects to be
funded:
983**

**Total number of StG+CoG projects
to be funded: 707 (%72)**

A Similar call calendar is expected for 2024 calls

- ERC Rules of Submission
- Model Grant Agreement

! 2024 WP will be published in July 2023 with some changes in evaluation and application forms

<https://ufukavrupa.org.tr/tr/alanlar-kumeler/avrupa-arastirma-konseyi>

Calculation of Eligibility Window for 2024 calls

Update on 2023 Calls

Prospective applicants to the 2023 Starting and Consolidator Grant Calls should note that the ERC is aiming to change the PhD reference date for the calculation of the eligibility period from the date of the actual award according to the national rules of the country where the degree was awarded to the date of the successful PhD defence.

For 2024 Calls the reference date will be 1 January 2024

	Starting Grant	Consolidator Grant	Advanced or Synergy Grant
Special Eligibility Criteria	<p>First successful PhD defence date</p> <p>>2 and ≤ 7 years Prior to 1 Jan 2024</p> <p>For ERC-2024-StG call</p> <p>From 1 January 2017 to 31st December 2021 (inclusive)</p>	<p>First successful PhD defence date</p> <p>>7 and ≤ 12 years Prior to 1 Jan 2024</p> <p>For ERC-2024-CoG call</p> <p>From 1 January 2012 to 31st December 2016 (inclusive)</p>	-

Properly documented circumstances:

Maternity: (18 months extension for each child born before or after the date of the successful defence of their PhD defence. If the applicant can document a longer total maternity leave, the eligibility period will be extended by the documented amount of actual leave(s) for all children taken before the call deadline. Same also applies for child adoption.)

Paternity (documented time of leave taken before the call deadline for each child born before or after PhD defence. The same principle also applies for child adoption)

Long term illness (Over 90 days for the Principal Investigator or a close family member (child, spouse, parent or sibling). After the PhD defence. An extension can be granted corresponding to the documented time of leave actually taken)

National service after PhD defence

Clinical training (after PhD defence and up to 4 years)

NEW Natural disaster (after PhD defence, Large-scale geological or meteorological events that have the potential to cause the loss of life or property, up to 30 days)

NEW Seeking Asylum: (after PhD defence)

Minimum Time Commitment of PI

Minimum percentage of the working time of a Principal Investigator that must be spent	Starting Grant	Consolidator Grant	Advanced Grant	Synergy Grant
On the ERC project	50%	40%	30%	30% for each Principal Investigator
In a Member State or Associated Country ⁴⁴	50%	50%	50%	50% for each Principal Investigator engaged and hosted by an institution in the EU or Associated Countries

Field work outside EU&AC:

Time spent on such field work or other research activities may count as time spent in the EU or the Associated Countries for the purpose of the Principal Investigator's time commitment.

Applicable for the whole duration of the project

- The current CV and Track Record templates will be combined and simplified and applicants will be able to add short narrative descriptions to explain the information provided.
 - Applicants will also be invited to explain career breaks or unconventional career paths and to describe exceptional contributions to the research community (being a panelist, science communication activities, citizen science, training young researchers etc..)
 - Profiles of the ERC Principal Investigators which appeared in previous Work Programmes will no longer be necessary.
 - The project proposal will explicitly weighed more than the past achievements of the applicant during the evaluation.
-
- ✓ Full details will be found in the ERC Work Programme 2024 and the associated guidance documents. (july 2023)
 - ✓ Suggestion: Applicants may start their preparations by using the 2023 templates for the time being.

Formal announcement: <https://erc.europa.eu/news-events/news/erc-scientific-council-decides-changes-evaluation-forms-and-processes-2024-calls>

Application Forms

ERC Starting Grant 2023
Research proposal [Part B1]¹
(Part B1 is evaluated both in Step 1 and Step 2,
Part B2 is evaluated in Step 2 only)

Proposal Full Title

PROPOSAL ACRONYM

Cover Page:

- Name of the Principal Investigator (PI)
- Name of the PI's host institution for the project
- Proposal duration in months

Text highlighted in grey should be deleted.

Proposal summary (identical to the abstract from the online proposal submission forms, section 1).

The abstract (summary) should, at a glance, provide the reader with a clear understanding of the objectives of the research proposal and how they will be achieved. The abstract will be used as the short description of your research proposal in the evaluation process and in communications to contact in particular the potential remote referees and/or inform the Commission and/or the programme management committees and/or relevant national funding agencies. It must therefore be short and precise, and should not contain confidential information.

Please use plain typed text, avoiding formulae and other special characters. The abstract must be written in English. There is a limit of 2000 characters (spaces and line breaks included).

Explain and justify the cross-panel or cross domain nature of your proposal, if a secondary panel is indicated in the online proposal submission forms. There is a limit of 1000 characters, spaces and line breaks included.

Section a: Extended Synopsis of the scientific proposal (max. 5 pages, references do not count towards the page limits)

[The Extended Synopsis should give a concise presentation of the scientific proposal, with particular attention to the ground-breaking nature of the research project, which will allow evaluation panels to assess, in Step 1 of the evaluation, the feasibility of the outlined scientific approach. Describe the proposed work in the context of the state of the art of the field. References to literature should also be included. Please use a reference style that is commonly used in your disciplines such as American Chemical Society (ACS) style, American Medical Association (AMA) style, Modern Language Association (MLA) style, etc. and that allows the evaluators to easily retrieve each reference.]

Please respect the following formatting constraints: Times New Roman, Arial or similar, at least font size 11, margins (2.0cm side and 1.5cm top and bottom), single line spacing.

Extended Synopsis: 5 pages + references

Concise presentation of the proposal
with emphasis **on ground-breaking
nature and feasibility** taking into
account the current **state-of-the-art**

Do NOT split the sections and/or references in Part B1 and do NOT upload them as separate documents. The peer reviewers will only receive one single document for evaluation at Step 1. Hence, Part B1 should contain all elements as explained in this template and if some parts of Part B1 are uploaded as separate attachments, the peer reviewers will not have access to them.

Applicant's last name

Part B1

ACRONYM

Section b: Curriculum vitae (max. 2 pages)

[Please follow the template below as much as possible. Please note that the CV part has been slightly modified compared to 2022 calls ("Supervision of Graduate Students and Postdoctoral Students" has been removed from the structured CV for Starting Grant and Consolidator Grant applicants).]

Please follow
the template
for StG, CoG
or AdG

Changes are
expected in
WP 2024

Track Record

Applicant's last name

Part B1

ACRONYM

Section c: Early achievements track-record (max. 2 pages)³

[Provide a list of achievements reflecting the Principal Investigator's track record. You may include a short narrative describing the scientific importance of the research outputs and the role that the Principal Investigator played in their production.]

(see 'Information for Applicants to the Starting and Consolidator Grant 2023 Calls' for completing this section)

Do NOT split the sections and/or references in Part B1 and do NOT upload them as separate documents. The peer reviewers will only receive one single document for evaluation at Step 1. Hence, Part B1 should contain all elements as explained in this template and if some parts of Part B1 are uploaded as separate attachments, the peer reviewers will not have access to them.

2 pages

For StG:

Upto **5** selected publications

For CoG and AdG:

Upto **10** selected publications

include short narrative for each pub.

Include field relevant bibliometric indicators

No JIF (journal Impact factors)

+ other achievements

**Changes are
expected in
WP 2024**

Early achievements track record

1. Up to **five publications** in major international peer-reviewed multi-disciplinary scientific journals and/or in the **leading international peer-reviewed journals, peer-reviewed conferences proceedings and/or monographs** of their respective research fields, **highlighting** those as main author or without the presence as co-author of their PhD supervisor (properly referenced, **field relevant bibliometric indicators (except JIF)** may also be included); **preprints** may be included, if freely available from a preprint server (preprints should be properly referenced and either a link to the preprint or a DOI should be provided);
2. **Research monographs and any translations thereof;**
3. **Granted patent(s);**
4. **Invited presentations to internationally established conferences and/or international advanced schools;**
5. **Prizes, awards, academy memberships.**

**Changes are expected in WP
2024**

Benchmark: PI must have already shown the potential for research independence and evidence of maturity (for example by **at least one** important publication as main author or without the participation of PhD supervisor)

A short narrative describing the scientific importance of the research outputs and the role played by the Principal Investigator may be included.

Early achievements track record

1. Up to **ten publications** in major international peer-reviewed multi-disciplinary scientific journals and/or in the leading international peer-reviewed journals, peer-reviewed conferences proceedings and/or monographs of their respective research fields, **highlighting** those as main author or without the presence as co-author of their PhD supervisor (properly referenced, **field relevant bibliometric indicators (except JIF)** may also be included); **preprints** may be included, if freely available from a preprint server (preprints should be properly referenced and either a link to the preprint or a DOI should be provided);
2. **Research monographs and any translations thereof;**
3. **Granted patent(s);**
4. **Invited presentations to internationally established conferences and/or international advanced schools;**
5. **Prizes, awards, academy memberships.**

**Changes are expected in WP
2024**

Benchmark: PI must have already shown the potential for research independence and evidence of maturity (for example by **several** important publication as main author or without the participation of PhD supervisor)

A short narrative describing the scientific importance of the research outputs and the role played by the Principal Investigator may be included.

B1: Track Record for AdG

Ten year track record

1. Up to **ten representative publications** as main author (or in those fields where alphabetical order of authorship is the norm, joint author) in **major international peer-reviewed multi-disciplinary scientific journals** and/or in the **leading international peer-reviewed journals and peer-reviewed conference proceedings** of their respective research fields (properly referenced, **field relevant bibliometric indicators** may also be included (except JIF)); **preprints** may be included, if freely available from a preprint server (preprints should be properly referenced and either a link to the preprint or a DOI should be provided);
2. **Research monographs and any translations thereof;**
3. **Granted patents;**
4. **Invited presentations to internationally established conferences and/or international advanced schools;**
5. **Research expeditions** that the applicant Principal Investigator has led;
6. Organisation of **international conferences** in the field of the applicant (membership in the steering and/or organising committee);
7. **Prizes, awards, academy memberships;**
8. **Major contributions to the early careers of excellent researchers;**
9. **Examples of innovation leadership.**

Changes are expected in WP 2024

Benchmark:

PIs must have already shown a record, which identifies them **as an exceptional leader** in terms of originality and significance of their research contributions. At least matching one or more of the following benchmarks:

- **10 publications as main author** (or in those fields where alphabetical order of authorship is the norm, joint author) in major international peer-reviewed multi-disciplinary scientific journals, and/or in the leading international peer-reviewed journals, and/or peer-reviewed conferences proceedings of their respective field;
 - **3 major research monographs.** This benchmark is relevant to research fields where publication of monographs is the norm.
- + other alternative benchmarks

Ten year track record **can be extended** for maternity, paternity, long term illness, national service, clinical training, natural disaster, seeking asylum.

A short narrative describing the scientific importance of the research outputs and the role played by the Principal Investigator may be included.

Figure 1. Citation in the last decade (Web of Knowledge)

Figure 2. Invited lectures in the last decade

Type of Publication	#	# without the PhD supervisor
peer-reviewed international journals	17	12
peer-reviewed conferences proceedings	31	16
book chapters	2	2
books	2	

Applicant's last name

How to fill in the forms

The administrative forms must be filled in for each proposal using the templates available in the submission system. Some data fields in the administrative forms are pre-filled based on the steps in the submission wizard.

Application forms

Proposal ID

Acronym

1 - General information

Field(s) marked * are mandatory to fill.

Topic	Type of Action
Call	Type of Model Grant Agreement

Acronym:

Proposal title:
The title should be no longer than 200 characters (with spaces) and should be understandable to the non-specialist in your field.
Note that for technical reasons, the following characters are not accepted in the Proposal Title and will be removed: < * &

Duration in months*:
Estimated duration of the project in full months.

Primary ERC Review Panel*:

Secondary ERC Review Panel: (if applicable)

ERC Keyword 1*:
As first keyword please choose one which is linked to the Primary Review Panel.
Please select, if applicable, the ERC keyword(s) that best characterise the subject of your proposal in order of priority.

ERC Keyword 2: Not applicable

ERC Keyword 3: Not applicable

ERC Keyword 4: Not applicable

Free keywords:
In addition, please enter free text keywords that you consider best characterise the scope of your proposal. The choice of keywords should take into account any multi-disciplinary aspects of the proposal.

- The electronic form is accessed via the call submission link in Funding & Tenders Portal
- 5 sections
- Many mandatory fields
- Devote enough time

Budget for grants

Total Budget:

- Maximum amounts and durations
- pro rata temporis (for projects of shorter period)

Starting Grant: 1.5 M € for 5 years
Consolidator Grant: 2 M € for 5 years
Advanced Grant: 2.5 M € for 5 years
Synergy Grant: 10 M € for 6 years

Budget Categories in application form

- Personnel Costs (PI, Senior Staff, students, other)
- Travel and subsistence
- Equipment
- Consumables
- Publications (incl. Open access fees) and dissemination
- Total other good, works and services

no upper limits for budget categories

Additional funding can be requested for

- Start-up costs (If PI/Pis moving to the EU or an AC from elsewhere as a consequence of receiving the ERC grant)
- Major equipment
- Access to large facilities
- Major experimental and field work costs (excluding personnel costs)

Additional funding:

- 1 M € for StG/CoG/AdG
- 4 M € for SyG
- not subject to pro rata temporis

- %100 funding rate for direct costs + %25 of direct costs (overhead) \leq max budget
 - Overhead rate is fixed
 - excluding the direct eligible costs for subcontracting and internally invoiced goods and services.
- **Depreciation costs** for purchases of equipment, infrastructure or other assets (not full costs)
- **EC rules together with national and institutional rules apply**
- The funding requested must be **fully justified** by estimation of real project cost
- All funding requested is **assessed** during evaluation by panelists
- Panels may suggest modifications(reductions) to the budget breakdown

Ask for support from your institutional ERC contact point.

Section C. Resources (Maximum 8000 characters allowed)

This section and the budget table will be made available to the experts evaluating the proposal at Step 2. Important: your description of resources will be truncated once it exceeds the maximum allowed characters. Please make sure that your description is complete before submitting.

State and fully justify the amount of funding considered necessary to fulfill the objectives for the duration of the project. The project cost estimation should be as accurate as possible. The evaluation panels assess the estimated costs carefully; unjustified budgets will be consequently reduced. Please specify if you will use third parties giving in-kind contributions to the action.

If applicable, please specify the cost items covered by your 'Other personnel costs' category and the cost items covered by your 'Other additional direct costs' category.

Request for additional funding if applicable (All items MUST be included in the overall budget table above): (Cost in EUR)

Justification:

Remaining characters

7011

I plan to allocate ... (one to max. two descriptive text pages) – max. 8000 characters.

Ethical Principles

- Comply with **national, EU and international** ethical principles and legislation
- Civil applications
- Headings:
 - Human embryonic stem cells and human embryos
 - Human participants
 - Human cells/tissues
 - Personal data
 - Animals
 - Non-EU countries
 - Environment, health and safety
 - **Artificial Intelligence (NEW)**
- Provide an **ethics self-assessment** and **supporting documentation** where needed
- See [“How to Complete your Ethics Self-Assessment”](#) document for guidance

4 - Ethics & security

Ethics Issues Table

1. Human Embryonic Stem Cells and Human Embryos

Page

Does this activity involve Human Embryonic Stem Cells (hESCs)? Yes No

Will they be directly derived from embryos within this project? Yes No

Are they previously established cells lines? Yes No

Are the cell lines registered in the European registry for human embryonic stem cell lines Yes No

Does this activity involve the use of human embryos? Yes No

If your answer is yes to any question

Application forms

Proposal ID SEP-210879515

Acronym test

Ethics Self-Assessment

Ethical dimension of the objectives, methodology and likely impact

Explain in detail the identified issues in relation to:

- objectives of the activities (e.g. study of vulnerable populations, etc.)
- methodology (e.g. clinical trials, involvement of children, protection of personal data, etc.)
- the potential impact of the activities (e.g. environmental damage, stigmatisation of particular social groups, political or financial adverse consequences, misuse, etc.)

Remaining characters

5000

Compliance with ethical principles and relevant legislations

Describe how the issue(s) identified in the ethics issues table above will be addressed in order to adhere to the ethical principles and what will be done to ensure that the activities are compliant with the EU/national legal and ethical requirements of the country or countries where the tasks are to be carried out. It is reminded that for activities performed in a non-EU countries, they should also be allowed in at least one EU Member State.

Remaining characters

5000

Evaluation Process

Evaluation of scientific excellence at two levels:

- **Quality of the Research Project**
 - Ground-breaking nature
 - Potential impact
 - Scientific Approach
- **Quality of the Principal Investigator**
 - Intellectual capacity
 - Creativity
 - Commitment

Quality of the Research Project

1. Research Project

Ground-breaking nature, ambition and feasibility

Starting, Consolidator, Advanced

Ground-breaking nature and potential impact of the research project

To what extent does the proposed research address important challenges?

To what extent are the objectives ambitious and beyond the state of the art (e.g. novel concepts and approaches or development between or across disciplines)?

To what extent is the proposed research high risk-high gain (i.e. if successful the payoffs will be very significant, but there is a high risk that the research project does not entirely fulfil its aims)?

Scientific Approach

To what extent is the outlined scientific approach feasible bearing in mind the extent that the proposed research is high risk-high gain (based on the Extended Synopsis)?

To what extent are the proposed research methodology and working arrangements appropriate to achieve the goals of the project (based on the research proposal)?

To what extent does the proposal involve the development of novel methodology (based on the research proposal)?

To what extent are the proposed timescales, resources and PI commitment adequate and properly justified (based on the research proposal)?

Quality of the Principal Investigator

Intellectual capacity and creativity

Starting and Consolidator

To what extent has the PI demonstrated the ability to conduct ground-breaking research?

To what extent does the PI provide evidence of creative independent thinking?

To what extent does the PI have the required scientific expertise and capacity to successfully execute the project?

or

Intellectual capacity and creativity

Advanced

To what extent has/have the PI(s) demonstrated the ability to conduct ground-breaking research?

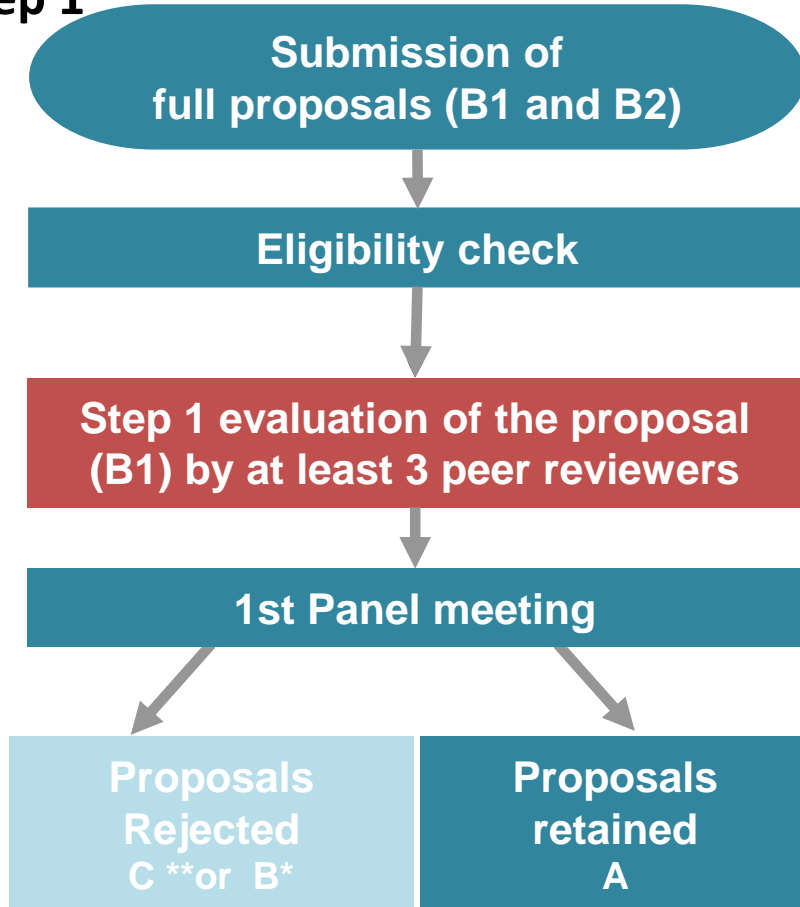

To what extent does/do the PI(s) has/have the required scientific expertise and capacity to successfully execute the project?

To what extent has the PI demonstrated sound leadership in the training and advancement of young scientists (for Advanced Grant applicants)?

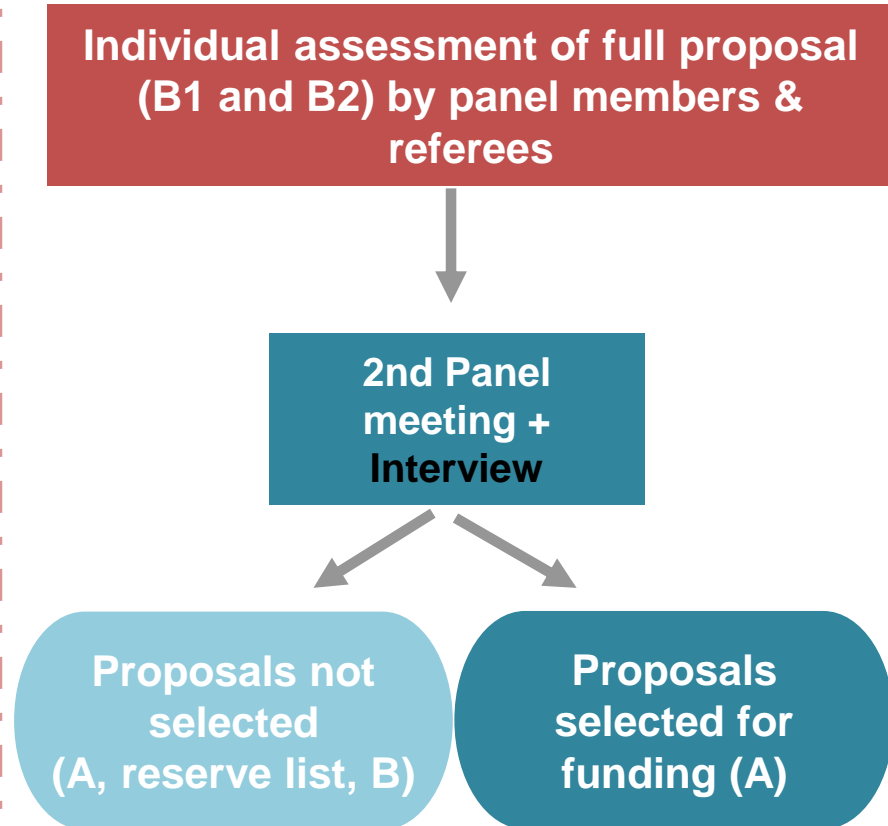

ERC Evaluation Process (StG/CoG/AdG)

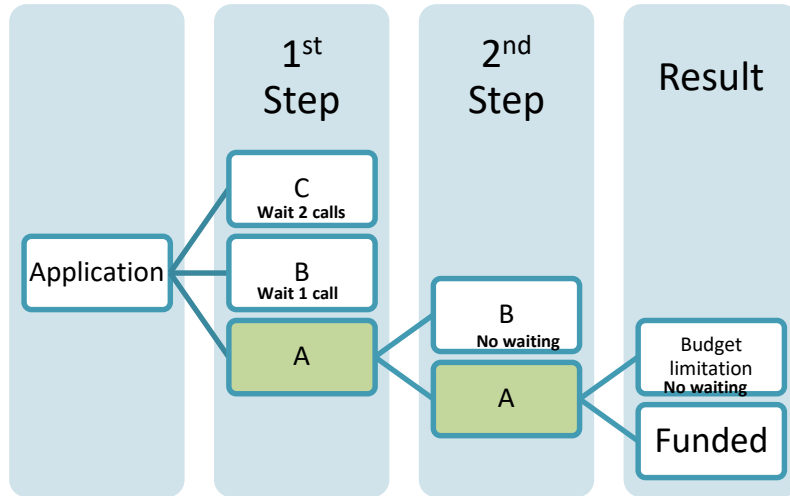

Step 1

Step 2

Rules on Resubmission:

Please consider:

- PhD year
- Your CV and track record
- Nature of the project
- Is your project high risk/high gain? Frontier?

! Waiting period concerns all ERC schemes of StG, CoG and AdG:

e.g.: If an applicant received C in ERC-2023-StG Call
he/she cannot apply to ERC-2024-StG/CoG and ERC-2025-StG/CoG

! Resubmission rules differ for Synergy Grant calls

> 4,000

panel members in 2014-2020 calls

60

European and non-European countries hosting
ERC panel members

> 45,000

external reviewers in 2014-2020 calls

- **Predefined panels** for StG, CoG and AdG: 28 Panels
- **Panel members:** typically 375 / call (SyG:~90)
 - High-level scientists
 - Recruited by ScC from all over the world: ~14% from outside Europe
 - About 12-16 members plus a chair person
- **Remote Referees:** typically 2000 / call
 - Evaluate only a small number of proposals
 - Similar to normal practise in peer-reviewed journals
- For SyG panels are not predefined but will be decided dynamically in relation to the proposals received

Physical Sciences & Engineering

- PE1** Mathematics
- PE2** Fundamental Constituents of Matter
- PE3** Condensed Matter Physics
- PE4** Physical and Analytical Chemical Sciences
- PE5** Synthetic Chemistry and Materials
- PE6** Computer Science and Informatics
- PE7** Systems and Communication Engineering
- PE8** Products and Processes Engineering
- PE9** Universe Sciences
- PE10** Earth System Science
- PE11** Materials Engineering

Life Sciences

- LS1** Molecules of Life: Biological Mechanisms, Structures and Functions
- LS2** Integrative Biology: From Genes and Genomes to Systems
- LS3** Cell Biology, Development, Stem Cells and Regeneration
- LS4** Physiology in Health, Disease and Ageing
- LS5** Neuroscience and Disorders of the Nervous System
- LS6** Immunity, Infection and Immunotherapy
- LS7** Prevention, Diagnosis and Treatment of Human Diseases
- LS8** Environmental Biology, Ecology and Evolution
- LS9** Biotechnology and Biosystems Engineering

Social Sciences & Humanities

- SH1** Individuals, Markets and Organisations
- SH2** Institutions, Governance and Legal Systems
- SH3** The Social World and Its Interactions
- SH4** The Human Mind and Its Complexity
- SH5** Texts and Concepts
- SH6** The Study of the Human Past
- SH7** Human Mobility, Environment, and Space
- SH8** Studies of Cultures and Arts

See rational and main changes in ERC website

Two revisions: in [2021](#) and [2024](#) calls

Panel decision

- PI's responsibility to choose the most relevant ERC Panel (primary panel)
- Secondary panel is optional
- See ERC keywords in Information for Applicants
- Decide on your panel before writing the proposal
- If necessary panel chairs may relocate the proposal from the initial panel
- Primary panel will determine if additional reviews by members of other panels or remote experts

Panel Budgets

- Indicative budget for each call in WP
- An indicative budget will be allocated to each panel (27 ERC Panels) in proportion to the budgetary demand of its assigned proposals in order to **equalise the success rate across panels.**

The composition of the ERC evaluation panels are by nature multi-disciplinary.

PE8 Products and Processes Engineering

Product and process design, chemical, civil, environmental, mechanical, vehicle engineering, energy processes and relevant computational methods

PE8_1 Aerospace engineering

PE8_2 Chemical engineering, technical chemistry

PE8_3 Civil engineering, architecture, offshore construction, lightweight construction, geotechnics

PE8_4 Computational engineering

PE8_5 Fluid mechanics

PE8_6 Energy processes engineering

PE8_7 Mechanical engineering

PE8_8 Propulsion engineering, e.g. hydraulic, turbo, piston, hybrid engines

PE8_9 Production technology, process engineering

PE8_10 Manufacturing engineering and industrial design

PE8_11 Environmental engineering, e.g. sustainable design, waste and water treatment, recycling,

regeneration or recovery of compounds, carbon capture & storage

PE8_12 Naval/marine engineering

PE8_13 Industrial bioengineering

PE8_14 Automotive and rail engineering; multi-/inter-modal transport engineering

EVALUATION CRITERIA

Criterion 1 - RESEARCH PROJECT

Ground-breaking nature and potential impact of the research project

To what extent does the proposed research address important challenges?

To what extent are the objectives ambitious and beyond the state of the art (e.g. novel concepts and approaches or development between or across disciplines)?

To what extent is the proposed research high risk/high gain (i.e. if successful the payoffs will be very significant, but there is a high risk that the research project does not entirely fulfil its aims)?

Scientific Approach

To what extent is the outlined scientific approach feasible bearing in mind the extent that the proposed research is high risk/high gain (based on the Extended Synopsis)?

Criterion 2 - PRINCIPAL INVESTIGATOR

Intellectual capacity and creativity

The questions below can have one of the following five responses: Exceptional/Excellent/Very Good/Good/Non-competitive

To what extent has the PI demonstrated the ability to conduct ground-breaking research?

To what extent does the PI provide evidence of creative independent thinking?

To what extent does the PI have the required scientific expertise and capacity to successfully execute the project?

PANEL SCORE AND RANKING RANGE

Final panel score: B (is of high quality but not sufficient to pass to Step 2 of the evaluation. Please note that you may also be subject to resubmission limitations in the next call)	Ranking range*: 39%-48% For your information, only the top 28% of the proposals evaluated in panel LS1 were retained for Step 2.
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------------

* Ranking range of your proposal out of the proposals evaluated by the panel in Step 1, in percent, from 1% for the highest ranked proposals to 100% for the lowest ranked.

PANEL COMMENT

This evaluation report contains the final score awarded by the ERC review panel during the first step of the ERC Starting Grant review and the ranking range. The discussion of the panel was conducted within the context of the individual reviews submitted by ERC panel members.

The panel closely examined all the individual review reports and, while not necessarily subscribing to each and every opinion expressed, found that they provide a fair overall assessment. The comments of the individual reviewers were the basis for the discussion and the final recommendation of the panel, and are included in this report.

Overall the panel considers this proposal to be of good quality. However, based on the combined set of criteria used in the assessment it was not ranked highly enough to be retained for Step 2. The panel therefore recommends that the proposal should not be retained for Step 2 and should not be considered for funding.

+ individual reports

- information letter
- evaluation report
- final panel score
- ranking range
- the panel comment explaining the panel decision
- the individual comments given by each reviewer

Source: ERCEA

Research Project

- Scope: Too narrow \leftrightarrow too broad/unfocussed
- Incremental research
- Collaborative project, several PIs
- Work plan not detailed enough/unclear
- Insufficient risk management

Principle Investigator (PI)

- Insufficient track-record
- Insufficient (potential for) independence

Before Redressing: see what you could you have done/explained/ presented better before blaming the process!

- Differing scientific opinion is not a motivation for redress
- An obvious mistake however might result in a re-evaluation

Other Issues

Publications:

- Immediate open access to all peer reviewed scientific publications (articles, book chapters, long text such as monographs, edited collections, PhD thesis etc.)
- Full re-use rights (excluding long text formats and commercial re-use and derivate works)
- Beneficiaries/authors must ensure sufficient IPR
- **Publishing costs are eligible only if publishing venue (journal or book) is fully open access**

Research Data:

- Open access to research data and data related products (computer codes, algorithms, softwares, workflows, protocols etc.)
- FAIR (findability, accessibility, interoperability and reusability) principles
- DMP (Data Management Plan) within the first six months
- **“As open as possible, as close as necessary”**

- Mandatory Gender Equality Plan – GEP for the HI
- Promoting gender balance at all levels of personnel during the implementation of the project
- PIs **should** determine the relevance of **integrating sex and gender analysis into their research**
- Costs for promoting gender balance can be considered eligible

Turkey's ERC Performance

Turkey's ERC performance

- In 2007-2022: 977 Applicants* and 42 ERC Grants*
- 35 Grants (12 of them in HE) are running/completed in Turkey with 63 Million € budget
- In addition 12 Proof of Concept Projects (5 of them in HE) *at the time of the application

E-Bülten Kim Kıldır? Türkçe

Alanlar / Kümeler Misyonlar Ortaklıklar Tüm Çağrılar TÜBİTAK Destekleri İPA Projesi

Starting Grant

Almanlar / Kümeler > Avrupa Araştırma Konseyi

Starting Grant çağrısı doktorasını çağrı referans tarihinden (çağrı kodunda yer alan yılın ilk gününden) 2-7 yıl önce almış genç araştırmacılar için uygundur. ERC-2023-STG çağrısına 1 Ocak 2016 - 31 Aralık 2020 tarihleri arasında doktorasını almış araştırmacılar başvuru yapabilir.

Doğum, askerlik ve uzun dönemli hastalık gibi araştırmaya ara verilen dönemler göz önüne alınarak bu zaman aralığı uzatılabilir. Örneğin bir annenin dünyaya getirdiği her çocuk için doktora öncesinde veya sonrasında doğum gerçekleşmiş olmasına bakılmaksızın en az 1,5 yıllık bir süre doktora aldığı yıla eklenmektedir.

Starting Grant fonlarından yararlanmak isteyen araştırmacıların belirli bir araştırma olgunluğuna erişmiş ve bağımsız araştırma yeteneklerini göstermiş olmaları beklenmektedir. Örneğin bu gösterge doktora tez danışmanından bağımsız olarak bir önemli makale yayınlamak veya önemli bir makalede ana yazar olmak olabilir.

Projelerin süresi maksimum 5 yıl olup, proje başına öngörülen bütçe 1,5 Milyon Euro'ya kadar çıkmaktadır. Bazı özel durumlarda (Avrupa Araştırma Alanı dışında Avrupa'ya/Türkiye'ye gelmek, büyük ekipman alımı, büyük araştırma altyapılarına erişim) bütçe 2,5 Milyon Euro'ya kadar çıkabilir.

ERC-2023-STG çağrısı 12 Temmuz 2022 tarihinde açılmıştır ve 25 Ekim 2022 Brüksel Saatıyla 17:00'da kapanacaktır.

Çağrı ile ilgili sorularınız için ERC Ulusal İrtibat Noktaları olarak ncperc@tubitak.gov.tr adresinden bizlerle irtibata geçebilirsiniz.

Suggestions

For a successful proposal...

Choose your panel before writing your idea

Devote time for choosing your panel

Devote time for drafting your proposal

Compare yourself and your idea with others funded by ERC

Don't wait until the last year

Contact your project office

Get scientific feedback from your colleagues

Organize mock-interviews

Apply EBAG (don't forget Mentoring Initiative)

Make sure you understand your Evaluation Results

Apply and re-apply to ERC

At all the stages contact us as NCPs

Thank you

Aslı VURAL
